

## YOUNG RUSSIAN KILLS BARKEEPER

Frank Littlefield Victim Of Revolver Shot Fired By Peter Culbis

Frank Littlefield, employed as bar keeper by Alex Stacey in the Soo Exchange saloon, 4 Brown street, was shot and instantly killed while on duty at about 10:30 o'clock Monday night. Peter Culbis, a Russian about 23 years of age, is held responsible for the crime.

The trouble between Culbis and Littlefield and which resulted in the death arose it is alleged over a dice game. Upon Culbis's refusal to pay for a game of dice which he had lost, Littlefield it is said, reached across the bar and slapped him. This action apparently angered Culbis for after apologizing for the disturbance he had caused, the man bought one or two drinks and left the saloon. It is then stated that he entered the restaurant of Oscar Jacobson adjoining and secured a revolver from his sack. Re-entering the saloon he is alleged to have deliberately fired twice at Littlefield. The victim fell prostrate to the floor. Herman Holzschuh, who was standing at the bar at the time, grabbed Culbis about the throat and overpowering him held him until the arrival of Officer O'Brien. Officer O'Malley was also on the scene a few minutes later. "Old Dad", who is well known about the city was the only other person at the bar beside Holzschuh when the crime was committed.

Dr. Westgate, who arrived at the saloon a few minutes after the shooting, pronounced Littlefield dead. Only one wound was found on the body in the side close to the left arm pit. The revolver used was of 38 calibre.

The above is the story of the shooting as near as can be ascertained although various stories concerning the cause of the crime are in circulation. One is that Culbis held an old grudge against Littlefield and remarked earlier in the day that he meant to kill him.

Culbis has been employed in the woods in this vicinity for some time past. He is a low type of foreigner and does not seem to realize the enormity of the crime with which he is charged.

For many years deceased had resided in Rhinelander and was well known here. He leaves a wife. The remains were taken to his old home near Dale Tuesday night for burial.

Held For Trial  
At the hearing this forenoon of Peter Culbis, charged with the death of Frank Littlefield, the prisoner pleaded not guilty and was bound over for trial before the fall term of circuit court. Attorney Charles F. Fycke appeared today for Culbis.

Coroner Charles Decanter considered the holding of an inquest unnecessary.

## JOINS WESTERN CIRCUIT

H. C. Zander Secures High Class Vaudeville For Majestic

Hundreds of children witnessed the beautiful film "The Star of Bethlehem" at the Majestic theater Saturday afternoon. The same picture was produced Saturday night and immensely pleased the audience. It cost thousands of dollars to secure this film, which was in three reels and was one of the most elaborate ever shown in this city.

Mr. Zander is now a member of the Western Vaudeville Circuit and the same high character of acts given in the big cities will hereafter be on the Majestic boards. The Military orchestra will continue to furnish music each Wednesday and Saturday evening and altogether an exceptionally good show will be seen for 5 and 10 cents.

A. J. Bolger of Minocqua is among those who are in the city to attend the funeral of Charles Chafee.

## WUNDERLICH JURY SAYS NOT GUILTY

Free Man Charged With Manslaughter—Sohr Jury Disagrees

After being out seven hours the jury in the case of R. J. Wunderlich of Three Lakes, charged with manslaughter, returned a verdict of not guilty at about 8 o'clock Tuesday night.

Wunderlich was accused of setting the gun which caused the death of Stanley Curry, the principal of schools in Three Lakes, early last November. The defendant was represented by Attorney T. W. Hogan of Antigo and Judge H. F. Steele of this city. District Attorney O'Melia was for the state and was assisted by Attorney Chas. Fricke.

The case occupied about four days and attracted intense interest.

Archie Nelson, the lad who was charged with an offense similar to that of Wunderlich, being accused of implication in the same case, was dismissed on motion of the district attorney who deemed the evidence insufficient to convict.

The jury in the second trial of the Sohr case failed to reach an agreement and came in late Thursday night after being out since 4 o'clock Wednesday afternoon. While not definitely known it is said that the jury stood 8 for acquittal against 4 for conviction.

August Trudeau was found guilty of adultery Wednesday afternoon. The jury was out one hour and a half. The case which was of a most sensational nature was brought here from Oconto county. Judge Reid sentenced Trudeau to 3 years in state prison.

A decree of divorce was granted in the suit of Gust Peterson vs. Elizabeth Peterson on the grounds of desertion.

The case of the Land & Loan company vs. the Minneapolis Cedar & Lumber company was continued for term.

The action of the Lake Region Land company vs. Chicago & North western railway company is now on trial.

## SACRED CONCERT SUNDAY

2. Selection—Male Quartette.

3. Piano—

a. Nocturne—Greig.

b. March of the Dwarfs—Greig.

c. To a Water Lily—MacDowell.

d. Rhapsodie—Liszt.

Mr. E. J. Stenson.

4. Duet—Selected.

Mr. and Mrs. A. J. Kimber.

5. "Jubilant"—Chadwick.

Double Quartette

"Last night we saw a rare combination of a wonderful accompanist and a fine soloist. Ervins Stenson seemed to anticipate every breath and every note the singer uttered and gave a beautiful background all through the long and difficult program. In his solo number, the beautiful "Rhapsodie" of Liszt his playing was remarkably brilliant; in direct contrast to his accompaniments which were always subdued and lovely. He is certainly a pianist with very rarely found qualities.—Davenport, Iowa.

## LENROOT GIVES CREDIT TO STEPHENSON

CONGRESSMAN WRITES THAT SENATOR STEPHENSON WAS RESPONSIBLE FOR SUCCESSFUL TERMINATION OF POSTOFFICE MATTER

HOUSE OF REPRESENTATIVES U. S.  
Washington, D. C.

March 3, 1913.

F. A. LOWELL,

Rhineland, Wis.

DEAR MR. LOWELL:—I was very glad that the Rhinelander matter came to a successful termination at this early date. Senator Stephenson is entitled to full credit for this because it was impossible for me to do anything for Rhinelander until later. As Merrill had the first call upon me, already having a site. I was able, however, to exert some influence upon the House conferees to accept the amendment made in the Senate including Rhinelander. It gives me great pleasure to see the bill go through. I had recommended Rhinelander next, but saw little hope of its going through until the next Congress according to all past precedents.

Yours very sincerely,

I. L. LENROOT.

## DEATH OF CHRIST LUND

End Comes Friday Morning After A Long Illness

Christ P. Lund passed away at his residence, 816 Mason street, Friday morning after an extended illness with tuberculosis. Mr. Lund's condition had been critical practically all winter and his death was not unexpected. Although realizing that the end was inevitable he endeavored to be cheerful and endured his suffering with patience.

Christ Lund was a native of Norway and was born in Steinkjosen, May 19, 1872. He came to Rhinelander a number of years ago and was employed in the lumber industry.

On February 4, 1905, he was united in marriage to Miss Christina Nelson in this city.

Deceased is survived by a wife and son, parents and four sisters.

The funeral was conducted Sunday afternoon from the Norwegian-Danish Lutheran church. Rev. Snares officiated at the services. The Sons of Norway lodge of which Mr. Lund was a popular member attended in a body. The Varden singing society to which he also belonged sang at the services.

Relatives present from out of the city were Mr. and Mrs. Julius Follstad of Elcho and Arthur Nelson of Milwaukee.

Mr. Lund was a man well liked by all who knew him and his death has caused sadness among his many friends. To the family is extended the sympathy of all.

## MOTHERS' MEETING

An enthusiastic mothers' meeting for the mothers of the first and fourth grade children was held Friday afternoon at the high school building. The attendance was large and several exceptionally well prepared papers were read. A general discussion was also held. Refreshments were served.

## FATHER PENFOLD SPEAKS

Friday evening at St. Augustine's church Rev. F. W. Penfold of Racine spoke to the congregation. Father Penfold is a fluent speaker and his address vividly impressed his hearers. His subject pertained to the church and he explained how essential it was that the church be behind every good movement to insure its success.

On Friday afternoon Father Penfold addressed the women of the church.

## WHITE IS NEXT LECTURER

Noted Socialist Will Be Here On March 19

Dan A. White, the third lecturer on the Socialist Lyceum Course will speak at the Grand Opera House on "The Class Conflict", Wednesday, March 19.

Mr. White has a national reputation as a Socialist and labor union worker, having spoken in 41 states. "How did you happen to drift into the Socialist movement?" he was once asked.

DAN A. WHITE

"I went through the various reform stages first, single-tax and others, saw that they were inadequate, and through evolution came logically into Socialism."

"Were you ever engaged in a struggle between wage earner and capitalist?"

"Indeed! Many of them," he replied. "When I had only finished my apprenticeship as an iron molder, there was a reduction in wages which resulted in a strike. From that time on I saw one conflict after another between employers wanting more profits, and working men wanting better living conditions."

## ROBERT BLACKBURN JR., DEAD

Mrs. Edith Bishop went to Milwaukee Tuesday to attend the funeral of Robert Blackburn, Jr., son of Mr. and Mrs. Robert Blackburn formerly of this city. Deceased was twenty years of age and had been in ill health for the last two years. Death came at 9 o'clock Monday morning at the family home, 509 Farwell Ave., Milwaukee. The friends here of Mr. and Mrs. Blackburn are sorry to learn of their bereavement.

## NEW ROAD WILL SURELY BE BUILT

Chicago And Wisconsin Valley Railroad Will Be Constructed Soon

In an interview, President Jones of the Chicago & Wisconsin Valley railroad informed the editor of the Merrill News that the building of the road through the Wisconsin Valley is a sure thing.

"You can assure the people of Merrill that the Chicago & Wisconsin Valley is a sure thing, and that the company will build an electric road into that city, and the entire Wisconsin Valley," said President J. E. Jones of that company to the News editor in an interview at Portage. "It is a big project, and must necessarily go slow at first, but when the road is built, it will not be merely thrown together, but a railroad all Northern Wisconsin will be proud of. We are operating a street railway in the city of Portage now, which is meeting with excellent success. It is only however, a part of the road we intend to build shortly. We expect to complete the line to Madison this year. The company has been reorganized, and is now in the hands of the stockholders, and not promoters, as formerly. We have been going over the surveys carefully, endeavoring to make it as practicable as possible, but it takes time and money to build a road of this proportion."

There is no question but what an electric road that will carry freight will be of inestimable value to the cities and rural communities of the counties that it will pass through. At the present time, the terminal of the company is at Merrill, but it is the plan of the officers and directors to extend it still further.

With the elevation of J. E. Jones of Portage to the presidency, the man who first discovered the need of such a road into these localities we can expect active work to begin in a short time. He is especially fitted for the high position for his high standing he commands in his home city and other places for his far-sightedness, energy, ability and honesty in matters entrusted to him.

## HEAR SECOND LECTURE

Otto Branstetter Addresses Audience On Socialism

No little interest is being displayed in the Socialist Lecture Course being held in this city. Otto F. Branstetter, secretary of the Socialist party in Oklahoma for a number of years, gave the second lecture of the series at the Grand Opera House last night. An audience composed of about 250 interested people heard the speaker.

Mr. Branstetter is one of the most brilliant orators on the lecture platform today. The subject of his address was, "What Is Socialism?" He was logical in his arguments and presented his side of the question in a clear concise manner. His remarks were received with frequent applause.

## PRISCILLAS AT THE BIJOU

The November and February committee of the Priscillas will have 50 percent of all door receipts at the Bijou next Wednesday evening, March 19th. An especially good entertainment will be booked for that evening by Manager Philico.

## FARMERS' COURSE OPENS

The Oneida County Farmers' Course opened at the city hall this morning. The attendance is large and intense interest is being manifested in all topics under discussion. The course will continue Friday and Saturday.

Judge Amos Radcliffe and Attorney Geo. E. O'Connor of Eagle River arrived in the city this afternoon to be present at the funeral of Mr. Chafee.

## DEATH TAKES A PIONEER CITIZEN

Charles Chafee, Old and Prominent Resident, Passes Away Tuesday

Charles Chafee, one of Rhinelander's earliest residents, president of the First National Bank of this city, and a leading business man, passed away at 11 o'clock Tuesday morning at the residence of Mr. and Mrs. D. F. Recker where he had made his home for the last twelve years.

Mr. Chafee's death was ascribed directly to heart trouble. He was taken ill Monday, March 3, and although the most expert medical skill was employed in his case nothing could be done to prolong his life. He declined rapidly, gradually growing weaker until he entered the final sleep at the time stated above. The announcement of Mr. Chafee's death came as a sad surprise to his friends in this city and throughout the state. Owing to the suddenness of his illness many did not know the true seriousness of his condition. He was active and attended to business until the time that he was confined to bed.

Charles Chafee was born October 27, 1839 in Hallowell, N. Y. At an early age he came with his father to Wisconsin, locating in Waushara county. After residing there many years he moved to Stevens Point, where he was long engaged in business. In 1882 he came to Rhinelander and built the Rapids House, the first frame structure here. Later he erected several of the buildings on Stevens street. In the early days Mr. Chafee besides conducting the Rapids House was engaged in lumbering, real estate and other undertakings. When the First National Bank was organized in 1890 he was elected vice-president which office he held until 1901 when he became president of the institution.

Mr. Chafee was one of the pioneers who helped to develop Rhinelander and the Wisconsin Valley. He came here when Rhinelander was but a clearing in the wilderness and assisted in making it one of the most important and prosperous cities in northern Wisconsin. When the county and town was young he was interested in public affairs and held offices of trust.

At the time of his death Mr. Chafee was interested in many enterprises in this city and elsewhere, and was a heavy land and real estate owner. He was a keen business man and his wise judgment was frequently sought by others. He was loyal to his friends and ready to aid them when the circumstances warranted. He was a prominent Mason and Elk.

Of the immediate relatives who survive deceased are a wife, one daughter, Mrs. D. F. Recker, two sisters, Mrs. Libby Schofield of Chicago and Mrs. Emeline Tice of Waukau; one brother, Henry Chafee of this city.

The funeral will be held at 2:30 o'clock this Thursday afternoon from the Recker residence under the auspices of the Masonic lodge. Rev. Grant Clark will officiate. A number of relatives and friends of deceased from outside the city are here to attend the services. During the time of the funeral all business houses will be closed as a fitting mark of esteem.

## GOING TO THE SOUTH

Chas. Vaughan leaves tonight for Stackhouse, N. C., where he has a position with the Laurel River Logging company. Mrs. Vaughan will join her husband in about one month.

## FULLER HOTEL TO REOPEN

The Hotel Fuller, which has for several months been closed, will reopen next Monday. Ed Fink will be the new proprietor and Jack Anker will act as manager. Both gentlemen are well known to the traveling public and were formerly connected with the hotel. They will no doubt make a success of the business. The Fuller has been redecorated and numerous improvements made which will be appreciated by the patrons.

### EVENTS OF WEEK IN OTHER TOWNS

#### Items Of More Or Less Importance Boiled Down From Neighboring Exchanges

##### Iron River—

A few weeks ago the Wisconsin State Bank, of this city, decided to assist in the development of the dairy industry tributary to Iron River, by furnishing the money to the farmers to buy cows, the bank to take its payment by a division of the cream checks until the repayment is made. The proposition met with instant favor and nearly every day some farmer drops into the bank and leaves his order for one, two or a half-dozen head—whatever number he is able to take care of in addition to the number he may now have.

##### Eagle River—

The Pittsburgh concern which has been drilling for mineral near the Sugar Camp chain of lakes and near the Wisconsin river near the power dam, has temporarily suspended operations. Due to the deep snow it was impossible to move the drilling machinery and the concern will wait until the snow disappears.

##### Phillips—

The telephone exchange of this city has been sold to Karl Mess of Colby. Mr. Mess is an expert in the telephone business and wherever he has operated exchanges he has given the people excellent satisfaction. He contemplates making extensive repairs in the near future such as the installation of an up-to-date switch board and the building of an up-to-date exchange building.

##### Stevens Point—

Dr. Thomas H. Hay, medical director of the River Pines Sanatorium, is in New York to be present at the investigations of the Dr. Friedman tuberculosis cure. He will remain in the east until some definite conclusion has been reached as to the

value of the treatment.

##### Oconto—

The two appropriations for projects at Oconto were passed during the expiring hours of the last congress and were signed by President Taft. The \$5,000 for a pier light and a lighted buoy to mark the entrance of Oconto harbor passed its final stages Monday and became effective. This was introduced by Senator Stephenson and passed the senate last session. It was never in danger probably except the danger that it might be delayed and die through the adjournment of congress, as it was approved by the U. S. light house board and had the cordial support of Congressman Knop in the house.

##### Tomahawk—

The program for Tomahawk's 1913 Chautauqua is about completed and is considered a strong one. Four musical organizations have been booked and there will be one or more good speakers each day. Some of the men already secured are Bishop W. A. Quayle, United States Senator; Poirdestor, Charles Edward Russell "Bob" Seeds, Dr. Frederick A. Cook and F. L. Selden. The dates of the Chautauqua are July 20 to 27.

##### Grand—

Work will begin shortly on the extension of the Wisconsin & North Shore railroad toward Shawano. William Cambler, chief engineer of the road, has been in the city recently looking over the right-of-way and arranging to start the job. He stated that the work will be pushed as rapidly as possible.

##### Washburn—

B. F. Hunkle of this city, who gained a state wide reputation last year when he was arrested at Eau Claire on a criminal warrant sworn out by C. F. Wieke, secretary of the Hines Lumber company, charging him with criminal libel and attempted blackmail, is now to start another action against the Hines company, this time for alleged false imprisonment.

##### Ashland—

The water in the public schools of this city has been shut off owing to its impure condition. It is necessary for pupils to bring bottles of water with them to school to drink when thirsty. The people of

the city are indignant over the present water situation and censure the water company severely. Something must be done at once toward securing decent water in the schools.

##### Merrill—

At a meeting of the Wisconsin Valley Fair association at Wausau the annual fair dates for the various cities in the circuit were announced. Marshfield withdrew from the circuit for the reason that it wished the dates that the exhibition has been held in Merrill each year. Neillsville will take the place of Marshfield. The Merrill fair will be held on August 26 to 29. Other dates are Wausau, September 2 to 5; Stevens Point, September 9 to 12.

##### Florence—

The spring term of circuit court for Florence county will convene in this city, March 24. The docket will be much larger than ordinary and a good term of court is predicted. Of late years only a single day was required to transact all the business; but this spring the proceedings will last much longer.

##### Grand Rapids—

Mrs. Allen Palmer, charged with the murder of her husband by striking him on the head with a heavy stick of wood, will be arraigned before Judge Park in this city next week. Mr. and Mrs. Palmer lived for many years on a farm near Manaw and were the parents of thirteen children. On the night of Jan. 6 Mrs. Palmer ran to a neighboring farm house and arousing the inmates, announced that a tramp had entered their home and murdered her husband. An investigation failed to substantiate her story and she was arrested a few days later.

##### Tomahawk—

The new Chicago, Milwaukee & St. Paul depot here is a sure thing. Construction of the building will be underway within thirty days. The depot will be of the bungalow style and will be equipped with all modern conveniences. It will be one of the prettiest station buildings of the valley division.

## A CLOSE INSPECTION OF OUR STOCK

Will reveal its superior quality and convince you of the wide difference that really exists in lumber. You may imagine that lumber is all the same, but you were never more mistaken in your life, if you imagine that. There's as much difference between two boards that pass for the same grade as there is between a plug and a thoroughbred.

We invite a critical examination of our stock, simply because we know it to be much better than the average. **QUALITY:** That's our hobby. When we sell you a bill of lumber we want to know positively that you will be satisfied that you've got the best your money will buy, and will come to us when you want something else in building material.

## C. O. D. PARCEL POST

New Service Will Go Into Effect On July 1

Washington, March 5.—On July 1 next the collect-on-delivery feature will be added to the parcel post department of the postal service of the country. An order putting this into effect was signed by Postmaster General Hitchcock.

Under the approved regulations, a parcel bearing the required amount of parcel post stamps may be sent anywhere in the country, and the amount due from the purchaser collected and remitted by the post office department. The regulations provide that the parcel must bear the amount due from the addressee, and the collection will be made if the amount is not in excess of \$100. The fee will be 10 cents, to be affixed by the sender, in parcel post stamps. This also will insure the parcel to an amount not to exceed \$50.

This feature was not provided when the parcel post system was put in operation because it was desired to simplify the work of postmasters as much as possible in the first days of the service.

The Many Departments In His Store Are Full Of Good Bargains

Since locating in Rhinelander six months ago my business has increased to such large proportions that I have found it necessary to add more departments in my store in order to fill the demand from both women and men for various goods.

Consequently I have installed a large shoe department where the finest stock of women's and men's footwear in the city can be found including the famous Dr. Edison's Cushion shoes for women and Bostonian shoes for men. The styles are snappy and up-to-the-minute.

My bargain department in the basement will save you money.

My line of beddings, rugs, carpets and linoleums cannot be duplicated anywhere for quality and prices.

A larger, more complete and up-to-date stock of women's suits, coats and dresses has never been brought to the city. They are among the latest creations of the leading fashion centers.

Children's confirmation and graduation dresses and infant's wear of every description.

I have an enormous line of millinery. Prices at about one-half what a regular millinery store would ask.

New spring dress goods, silks, lace curtains and curtain material by the yard. Also I carry a full stock of the famed Colonial draperies.

Men's hats, shirts, collars, underwear, trousers, socks, neckwear, shoes, suspenders, belts and haberdashery.

A vast assortment of muslins, calicoes, ginghams and remnants of all kinds. You are cordially invited to visit the store and look over the stock and be convinced that no store in the city can offer you more and better selections. My aim is to please my patrons and insure their permanent trade.

Mr. and Mrs. Haviland leave soon for their future residence in Michigan.

## FIRE FIEND AT SAXON

As a result of the recent attempt to destroy the store of Arthur Auger in Saxon, the state fire marshal's office has been investigating the numerous fires that have occurred in the village of Saxon during the past six months and has arrived at the conclusion that a number of the fires were of incendiary origin. It will be recalled that almost the entire business section of Saxon was wiped out by fire last fall. The fires are not alleged to have been started for the purpose of collecting the insurance but were simply started in a spirit of revenge, is the belief of the investigators, and during the past two months a party who is believed to have started the fires has been under the surveillance of Charles Good, deputy fire warden of Ashland.

## PALM SUNDAY SERVICES

Next Sunday, March 16th, being Palm Sunday there will be the blessing, distribution and procession of palms at 11:00 a. m. at St. Augustine's church. This Sunday is called Palm Sunday in commemoration of the triumphal entry of our Lord into Jerusalem, which (from St. John XII, 1-12) was reckoned as corresponding with this day. This is an age old custom of the Catholic church both in the West and the East, and is intended both as a commemoration and badge of discipleship. The branches of palms which have been blessed for this purpose are carried home by the people and reverently kept as a reminder of the lessons of Palm Sunday.

## DO YOU ENJOY EATING

Or Does Everything You Eat Distress You?

Experts declare that the reason stomach disorders are so common in this country is due to hasty and careless habits of eating. Stomach troubles and run-down conditions also usually go together.

John Lind, of Oneonta, N. Y., says: "I have been troubled with a bad stomach trouble for fifteen years, and became so weak that I could hardly walk or do any work. My appetite was very poor, and it seemed impossible to get any relief. Since taking two bottles of Vinol I find that it has already made a remarkable improvement in my health; my digestion is much stronger, and I have gained in weight."

Vinol makes weak stomachs strong because it strengthens and tones up the weakened, tired and overtaxed nerves of the digestive organs. Vinol is easily assimilated by the weakest stomachs, and is delicious to the taste.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. I. S. If you have Eczema try our Saxo Salve. We guarantee it.

If you wish to know what the officials of the city of Rhinelander are doing, you must take the New North. It is the official city paper. It is also the only official county paper for Oneida county. Know what is going on in your city and county.

It is useless for candidates to ask credit at this office. Pay when you order the work done. You will be better satisfied and so will we. Political debts are not easily collected.

Governor McGovern is in favor of a law fixing a minimum wage for women. Such a bill is now before the Wisconsin legislature.

What next? Now a bill is before the legislature to fence in a tract of 10,000 acres of the forestry reserve for game preserve. The bill carries an appropriation of \$20,000.

Politics are getting lively in the city. Several new candidates have entered the field the past week. Every man should reflect and vote for the financial betterment and moral uplift of the city.

Hon. Irvine L. Leuroot is too honest and too big a man to wish to claim any unearned honors and we wish to square with all men and all matters so we publish the congressman's letter in which he gives Senator Stephenson due credit.

After talking with many of the legislators at Madison last week, a New North representative fully realizes the good work of the Oneida county Committee, Messrs. Moran, Krapp and Wubker, against the Griffith forestry policy and for the protection of our farm lands.

The city of Janesville asked the State Tax Commission for reassessment. Janesville was not satisfied with her share of the county tax; they asked for reassessment, lost out and now the commission says they must pay the cost \$2370.00. They had plenty of experience but it was expensive.

We are glad to see the city take the step the New North advocated for for all employers months ago, that is, pay labor twice per month. Now let other employers come on and take this step too. It will help credit and will also alleviate much suffering. The employer has no right to hold the money at the expense of the merchant and the privations of the laborers.

## REASONS FOR CARY'S ELECTION

There is no officer to be elected this spring more important than the State Superintendent of Schools. Careful and thorough investigation at Madison reveals this condition of affairs. First—An attempt is being made to inject politics into the election of the State Superintendent. The present superintendent has carefully excluded politics from his administration. Second. The state university is being injected into the contest. No one denies the magnificent work done by that institution. We claim, however, that some things have been done which have been kept in the dark. There has been only one man in the state who has dared to come out openly and to show up the shortcomings. We believe this has been done in the desire to remove the barnacles and thus to strengthen the university.

The man who has done this is the present state superintendent and these lines are written to place the matter squarely before the people and in the right light, after a most careful investigation at head quarters. We feel it our duty to be strictly honest with our readers.

While the office of State Superintendent is non-partisan, we feel the attack on Superintendent Cary is by a mighty political machine with headquarters at Madison and also fear that Mr. Cary's defeat would put the schools of the state in the hands of this machine to the detriment of the schools and help destroy the independence of the public school system.

There are no other laws so sacred as the laws of health.—Hubbard.

## IMPURE MILK DANGER

A bill recently introduced in the state senate provides that "all surplus creamery products of the University of Wisconsin shall be sold and disposed of to the several state institutions", the meaning of which is that the University would no longer be permitted to sell milk cream and butter to the public. It is said that the measure has its origin with farmers who believe that this practice by the University is seriously interfering with their profits. Maybe so. Yet here in Madison we are confronted with a serious milk situation. The doctors of the city tell us that there is hardly a dairy company in the city which delivers milk, clean enough and pure enough for safe infant consumption, certainly not for sick babies. It is the pure milk from the University herd which, to its limited capacity, is actually saving some of the babies of Madison from death—the average dairyman's milk being too impure to be relied upon. Competent authorities tell us that there is probably but one private dairy concern in Madison that maintains a good average for clean, pure milk.

The agricultural college tells us they are helpless to improve the situation; they are doing their utmost at all times to teach the farmer how to deliver, and the importance of delivering a good, clean dairy product of standard purity. But we are without good municipal laws regulating the sale of milk. The agricultural college has, time and again urged the city council to adopt some such laws as govern the milk situation in Rochester and New York but the Madison city council, with its consistent don't-care-to-anything policy has refused to accept the same and scientific advice of the state's ablest agent in these matters and so the sick babies of Madison have nothing to depend upon but their opportunity to get a place on the favored list which allows each a quart a day from the University herd.

If this bill, introduced by Senator Burke of Green Bay, passes, it may work a petty benefit to some of the farmers who want to sell their milk here, but it will work an injury to the sick babies of Madison who will be compelled to drink milk that meets no standard of purity. We invite Senator Burke of Green Bay to stop a dozen milk warrens on the streets of Madison, lift a quart bottle of milk out of each of them; filter that milk and then see what he finds shall be the food of the babies of this town. Until the city council of Madison shall pass a fit law governing the sale of milk in this city the only safeguard the citizens have on the milk question is the University herd. Take that away and the dairy farmer may grow even more indifferent. Let the senate concern itself first with the problem of PURE FOOD and then, and as a result of that, the question of better business and better profit.—Madison State Journal.

The people who have been interested themselves in pure milk, cream and butter know too well the truthfulness of the above article. But why should Madison be protected against impure milk at the expense of the state institutions? Why are the babies of Madison more precious than those in other towns of the state?

If the State Journal realizes what it says why does it not work to get a state law passed compelling inspection of milk, cream and butter in every town? Something must be done. When we know that many of the handlers of milk, cream and butter care nothing for the lives of the users, it is time to have rigid laws and thorough inspectors in every town.

A most important decision on this all important subject was handed down by the state supreme court. The following is the gist of the decision:

A manufacturer of foods who sells to a retailer a product which he knows or should know has been so prepared as to make it dangerous to health, is liable to a customer of the retailer even though there was no contractual relation between the producer and the consumer.

A wholesaler who sells to a retailer, goods which, because of negligent preparation or other cause, he knows or should know are poisonous, liable to a third person, with whom he has no contractual relations is held in damages for injuries received from eating such food?

Mrs. A. Larsen on Mason St. entertained a large company of friends Wednesday afternoon in honor of her birthday.

Chris. Laugeson, captain of the Night Hawk bowling team, declares that the Barbers are not city champions. The Night Hawks claim that honor and they challenge the Barbers to a game at any time.

## WOMEN WORKERS UNDERPAID

The investigation of women's wages in Chicago by the Illinois legislative committee reveals the fact that it costs eight dollars per week for a woman to live in that city and still hundreds of them have been paid less than five dollars per week. More in many instances the net dividend earned by the concerns have been nineteen to twenty per cent per annum, in other words, the wages of these poor women workers in no way have been benefited by large dividends. Neither has the actual cost of living been considered in hiring the women and girls. What may be expected under such industrial conditions? Is it any wonder that thousands of women workers fall by the wayside and surrender to degradation and disgrace? The Milwaukee papers claim that the cost of living for a woman in that city is \$9.90 per week. The cost of living in this city is full as high as that in Chicago consequently, women and girls in this city should receive at least a minimum of eight dollars per week. Is it square to make the excuse that the girl lives at home? The Chicago employers tried that but when they were questioned on the witness stand their excuses looked small indeed. For the betterment of society we must ponder over the results of these investigations. Present and future social conditions demand it.

## DEMAND PURE BUTTER.

Within the last week the government has confiscated fifty thousand pounds of butter in the cold storage plants at Chicago because it contained too large a percent of water. Within ten days three hundred thousand pounds have been confiscated for the same reason. The law allows a maximum of sixteen percent and some of this butter had as high as thirty five percent of water.

This is no exception with the members of the butter trust and it is high time this trust is broken and that the consumers get pure, clean butter with the right percent of butterfat. One way to correct this evil is the cooperative creamery. We will speak of this later.

## ELKS SHOW APRIL 1

Rehearsals Are Being Held Nightly For Big Minstrels

Rehearsals for the big Elks minstrel show are big conducted nightly and when the curtain rises on the brilliant first part at the Grand Opera House, Tuesday night April 1, the public will see and hear the greatest array of burnt cork comedians, sweet singers and musicians ever assembled in this city. All the old home talent favorites will be there with a line of new jokes, and the latest song hits. Careful attention has been given to the program which promises to be the best of its kind ever offered in Rhinelander.

Everybody is talking about the Elks minstrels and it is anticipated that the theater will be taxed to its utmost on the night of the attraction. The date of the advance sale will be announced later.

# VISITING NURSES HOLD MEETING

Interesting Program Is Given By The Association In Green Bay

The meeting held by visiting nurses during the Northeastern Wisconsin Teachers' Association convention at Green Bay, was attended by workers interested in public health associated charities, school, visiting and tubercular nurses and the welfare of school children.

In a paper on oral hygiene, Miss Jane Warden of Appleton urged the necessity of education in oral hygiene to mothers and fathers as well as children. She said that in an examination she made, that only three out of 800 children did not need dental attention. She said the six-year-old molars are the first of the permanent teeth and must be taken care of. "The tongue is the index to conditions of the entire intestinal tract," she added, "and without good teeth we will never have perfect digestion, clear mouths and a sweet breath. Many diseases are traced to bad teeth."

The importance of breathing fresh air was emphasized by Miss Lee of Neenah who talked on tuberculosis among school children.

"Tuberculosis appears in the first grades in form of tubercular cervical glands. Most of the enlarged glands in the neck are tubercular. In the third to fifth grades it appears in form of joint or spinal tuberculosis. Pulmonary tuberculosis seldom appears before the thirteenth year.

The only effective way to handle tubercular glands in young children is to interest both parents by having parents' meetings and impress upon them the necessity for fresh air, pure food, regular diet and exercise, sufficient rest and proper care of the body, especially care of the teeth.

Miss Kenney of Oshkosh, who was formerly one of the Milwaukee nurses of the schools, said she considered it necessary for the boards of education to maintain free baths in the public schools with a closet supplied with clean clothes so all children may be clean.

Miss Tracy Copp, teacher in the fresh air school, Green Bay, talked about her school in the most interesting way. She said during the first seven months, 23 children were enrolled, eight having been in during the entire time. The total gain in weight was 116 pounds. The largest individual gain was 13 pounds and eight ounces.

Miss Edythe L. M. Tate of Milwaukee spoke of the responsibility of parents in bringing up their children. She said parents should lose the idea that their responsibility ceases when the child enters school. She recommended 15 minute talks on general hygiene be given daily to children till they reach the eighth grade.

Get your genteel EASTER SUIT early and have it fitted to your shape.

Suits ranging from \$15.00 to \$25.00.

A big line of Easter Novelties in Neckwear will be sold at the popular prices of 25c, 50c and 75c.

Gary & Danielson

Judge John Barnes is here from Madison to attend the funeral of his old friend, Charles Chafee.

D. L. Jenkinson of Minocqua and D. A. Kahn of Woodruff were in Rhinelander today.

There is reported to be little change in the condition of Mrs. Richard Reed who has for a number of days been seriously ill.

Woman's Sense of Honor. On this point women are still not entirely in agreement. "Sense of honor?" said one young woman to whom the question was brought up: "Women's sense of honor? They haven't any." On the other hand, an elderly one who is wise through long and sweet living—answered, "Sense of honor? Of course women have it—as high as any man's. Only—I should want to choose my woman." Where, then, does the truth lie?—Atlantic.

Affection. It is sublime to feel and say of another, I need never meet, speak or write to him; we need not reinforce ourselves or send tokens of remembrance.—Emerson.

In Advocacy of Kindness. "Deal gently with the old, for they have come a long way; and be kind to the young, for they have a long journey before them."—Selected.

Energy That Counts. The friction of men in action is the energy that sends the world spinning. Disagreements are like flint and steel, they strike the new sparks. Contrary opinions fall the chaff out of ideas.—Herbert Kaufman.

Cynical. "The measure of a man," in the modern girl's opinion, is merely a matter of the breadth of his shoulders, the length of his nose, and the embonpoint of his pocketbook.—The Teller.

Daily Thought. Be true to your word and your work and your friend. — John Boyle O'Reilly.

Remember. Do you remember, if you lose heart about your work, that none of it is lost; that the good of every good deed remains, and works on forever; and all that falls and is lost is the outside shell of the thing; which, perhaps might have been better done, but has nothing to do with the real good you have done to men's hearts.—Charles Kingsley.

Reminding Him. Peck—"You will never get the dog to mind you, my dear." Mrs. Peck—"I will with patience. You were just as troublesome yourself at first."—Boston Transcript.

Rhineland Boxer Mixes Minneapolis Boy

In his tilt with Art Godfrey, the Minneapolis middleweight, in Superior last Wednesday night, Billy Perkins of this city had a slight shade. At no time during the ten rounds of boxing did the Flour City mitt artist put anything over the local lad. It was a good fast bout and though Godfrey did his best to land a telling blow Perkins received scarcely a scratch. It is reported that Godfrey came in with a whirlwind of short peppery blows but none of them were effective. Perkins, according to press dispatches, showed excellent form and proved that he is in the game stronger than ever. In his bout with Caponi he picked off a few pointers which are very helpful to him. He doesn't regret in the least his experience with the Italian boy.

The main attraction on the Super for card was a ten round mix between McGorty and Mahoney. The Oakkash idol failed to make the showing which was expected of him and Mahoney had him shaded.

**Forced Gaily Falls.**  
People of the greatest gaily of manners are often the dullest company imaginable. Nothing is so dreary as the conversation or writing of the professed wag.—Harrill.

**Was His Time to Die.**  
A very strange incident occurred at Vauvart, France, during a recent storm. A man eighty years of age was caught up by a whirlwind and buried over a haystack. He came down to safety on the other side, but as his friends were congratulating him on his escape the old man was killed by lightning, which spared the other men who were standing around him.

**Vegetarian Menu.**  
The menu of a meal given lately by the London Vegetarian association included walnut cutlets with brown sauce, cauliflower and new potatoes, asparagus on toast, spaghetti on toast, tomato farcis and young carrots.

## FLASHES FROM THE HEADLIGHT

**Bits of News Pertaining To The Soo and Northwestern Railroads**

The Central Iron Works of Stevens Point has been awarded the contract for making all of the great castings to be used on the Chicago division of the Soo line.

Of the Northwestern system some 799 miles are now protected by signal lights, so that one may figure out the size of the army of signal hamp men now at work on the system.

Workers have been graduated from this trying work to some of the most responsible positions in the operating department, for a man who has made good in such a job, as a rule makes the best kind of hand in other lines of work.

Leo Manalge, a Northwestern freight brakeman, suffered the loss of a foot in an accident at Elard Junction. He fell from a load of logs under the wheels of a car and his left foot was so badly crushed that amputation was necessary. Manalge's home is at Tomah.

There is a rumor afloat that the C. & N. W. railway are planning to build a branch road starting at Mount Lake, on the Wabeno branch of the Northwestern and running northwest to Jennings on the Pelican branch. One reason for this is that the Northwestern owns large tracts of timber lands in the territory through which the proposed branch would run. It built the line would lay pretty close to Pickerel Lake.

The Northwestern railway company has consented to erect a beautiful new depot in Clintonville. Work on the erection of the structure will be commenced sometime within a year from the present time. This is an improvement which the people of Clintonville have long been in need of.

Ell Eaton, a Gladstone man who recently secured a patent on a contrivance for loading shingles, has been informed by the Soo line officials that they wish to receive a working model of the invention with the intention of using them at different places where the company has large quantities of shingles to load.

**IS THIS SPRING?**

Some People Say The Backbone Of Winter Is Broken

The weather during the last week has been greatly on the spring like order and some of the local prophets have remarked that the backbone of King Winter has been broken. By the city residents an early spring would receive a welcome but the loggers and farmers who depend on a few weeks more snow and cold weather to market their logs and wood, a break-up at this time would prove a detriment. It is generally well into the fore-part of April before spring really appears in this part of the country and many believe that this year will prove no exception to the rule. Overcoats and coal fires will no doubt be comfortable for many days to come.

**ANOTHER WARNING**

The effort to unload western fruit lands on Wisconsin farmers is still going on, although the degree of success is not known.

Nearly any sort of a gold brick can be painted and decorated to make it look attractive. Thus, Florida lands worth not over two dollars an acre and actually sold in Florida at that price, is retailed to the gullible public at thirty and forty dollars with the assurance that "ten acres is enough," a statement which, standing alone is certainly true. Texas mesquite plains are unloaded at sixty dollars. California lands are offered at a hundred dollars an acre up, while the advertisements for the latest Eldorado, the Kootenay region, are so worded that the average reader gets no idea of what he is expected to shell out.

**GRAND EASTER BALL**

Attractive posters advertising the grand Easter ball to be held at the Armory, Monday night, March 24, have been distributed conspicuously about the city. This function is given under the auspices of Company I, W. N. G. and the money made is to be used in defraying the expense of the new floor in the Armory. The price of tickets has been placed at \$2.00 and the company boys urge everyone to help along the good cause.

There will be special music by the Military orchestra and the fine new floor will be used for the first time for dancing purposes. It has been arranged to make this the most enjoyable ball ever given by local militia.

## Causes Much Disease

Advice about Stomach Troubles  
and how to relieve them.

Don't neglect indigestion, for it  
may lead to all sorts of ills and com-  
plications. An eminent physician  
once said that ninety-five per cent of  
all ills have their origin in a dis-  
ordered stomach.

Our experience with Reall Dys-  
pepsia Tablets leads us to believe  
them to be one of the most dependable  
remedies known for indigestion and  
chronic dyspepsia. Their ingredi-  
ents are soothing to the inflamed  
membranes of the stomach. Rich  
in Pepsin and Bismuth, two of the  
greatest digestive aids known to  
medicine, the relief they afford is  
very prompt. Used persistently and  
regularly for a short time, they tend  
to rid the system of stomach  
disorders.

Reall Dyspepsia Tablets help  
insure healthy appetite, aid diges-  
tion, and promote nutrition. As  
evidence of our faith in them, we ask  
you to try them at our risk. If they  
do not give entire satisfaction, we  
will return the money you paid us  
without question or formality. Three  
boxes, 25 cents, 50 cents and \$1.00.  
You can buy Reall Dyspepsia Tablets  
in this community only at our store:

## TO BUILD MANY SILOS THIS YEAR

Oneida Farmers Are Becoming  
Awake To The Value Of  
Silage For Feed

One by one farmers of Oneida  
county are coming into the use of  
the milk scales and the milk sheet.  
This time it is Charles Gross of  
Crescent. Mr. Gross has a silo and  
is happy in its use. He is a leader  
in producing alfalfa; last summer cut-  
ting three crops, the third being  
the best. There are those here-  
abouts who do not think much of the  
alfalfa crop and who also discour-  
age silo building. But those who  
are really thinking of going into a  
trial plot of alfalfa or who have in-  
mired a silo had better talk with Mr.  
Gross before turning down either  
proposition.

Corn will produce more calbohy-  
drate ration to the acre than any  
other plant. Alfalfa will produce  
more protein to the acre than any  
other crop. Alfalfa will grow well  
in Oneida county. Silage corn is a  
wonderful crop here. With alfalfa  
hay and with a silo to save the corn  
crop Oneida county farmers can be  
the most independent men on earth.

It is encouraging to find so many  
farmers thinking about putting up silos  
this summer. Enterprise will  
have at least one silo. Monico will  
probably have three, Crescent will  
have several, Cassian will have one  
and probably more. Woodruff will add  
some and it looks as if Minocqua  
would also, several in Sugar Camp  
are thinking very favorably. Three  
Lakes and Pelican ought to put up  
several silos. These two townships  
have a lot of fine land and farmers  
who are prosperous. Silos would  
make these two towns hard to beat.  
So it is confidently expected that  
some silos will be reported from  
these towns. With the wide spread  
sentiment that there is in the county  
for building silos it is very probable  
that the other towns will add to  
the list.

The Agricultural representative  
would like to hear from any who are  
contemplating the erection of silos  
this coming summer. Drop a card  
with the information. Every ad-  
vice that the representative can give  
will gladly be given in this silo  
movement.

Canadian smut nose corn makes a  
good silage corn. We want a corn  
that will mature. The more mature  
corn that there is in silage the  
better the silage. Canadian smut  
nose corn may be secured of such  
companies as Northrup, King and  
Co., Minneapolis, Minn., and the Old  
Seed Company, Madison, Wis. Seed  
dealers in the county will also secure  
this corn for you if you order early.  
It is usually pretty hard to se-  
cure good seed corn. Farmers ought  
to get after good seed corn early.

A silo 12 feet in diameter and 30  
feet tall will hold between 60 and  
70 tons of silage. Suppose corn will  
only produce 10 tons to the acre.  
Then a farmer needs to plant about  
six or seven acres of corn to fill  
his silo. But one farmer in the  
county has raised silage the last  
three summers that has averaged  
13 tons to the acre. So from five  
to seven acres of corn will still be  
12 by 30-foot silo. Feeding at the  
rate of 35 pounds a day to a cow,  
a ton of silage will last about two  
months. Three tons of silage will  
feed a cow from Nov. 1 to May 1.  
Consequently a silo that will hold be-  
tween 60 and 70 tons will feed from  
fifteen to twenty cattle for six  
months. From this it is easily seen  
how easy it is to keep cows when  
you have silage. And when you have  
silage you have a feed that keeps  
the cattle in better condition than  
any other feed and the cattle will  
produce more milk and beef on a  
silage ration than on any other feed.  
Why then waste any more time feed-  
ing cows an expensive dry ration  
which does not help them to pro-  
duce or feed them a starvation ra-  
tion to get them through the win-  
ter? A silo is an insurance against  
loss of production and starvation.

No, cattle do not lose their teeth  
by eating corn silage. Don't let any  
body fool you with foolish stories.  
Don't let any "doubting Thomas"  
hinder you either. Don't let any  
body who just likes to take the op-  
posite side keep you from building  
that silo this summer. Build it now  
and have the benefit of its use.

## HIGH SCHOOL HAPPENINGS

Important Doings Of The Week Among  
The Students

The Civics class has been in attend-  
ance at the sessions of the Circuit  
Court several times. Mr. Colburn  
took the class up there Monday during  
the last period of school, the majority  
of the pupils being so interested they  
stayed until adjournment, and Mr.  
Hill took the class up there on Tues-  
day before recess. Everybody took a  
deep interest in the proceedings, and  
in most cases only wished that they  
could remain and hear more of the  
proceedings. The case then under  
trial was that of the State vs.  
R. J. Wunderlich for the setting of  
the set gun that killed Prof. Curry at  
Three Lakes last fall. Mr. Wunder-  
lich was acquitted.

At last those long looked-for class  
rings for the Seniors have arrived at  
the express office, and Mr. Crusoe is  
now endeavoring to round up the  
coin sufficient to get them out of the  
office. All things come to those who  
wait!

Miss Kuhnstead informs us that  
the Senior Class Play will soon be  
taken up in earnest. Great interest  
is felt in the class concerning the  
play.

The faculty is arranging for an  
inter-class declamatory contest. Sev-  
eral members of each class will com-  
pete for the honors of their class.  
This contest will be held soon, may-  
be immediately following the holidays.

Elwood E. Smith.

## BENEFITS LOCAL PEOPLE

Rhinelander people have discovered  
that A SINGLE DOSE of buck-  
thorn bark, glycerine, etc., as com-  
pounded in Adler-Lka, the German  
appetite remedy, relieves gas on  
the stomach and constipation AT  
ONCE. J. J. Reardon, druggist.

## Away From Dust of Autos.

The increase of motoring and the  
consequent increase of dust have, to  
some considerable extent, changed  
the value of villa and hotel sites in  
visitors' resorts. The choice, espe-  
cially in the south of France and Italy,  
is now much in favor of houses well  
away from the main road, and even  
well outside towns.

## Simple Swimming Apparatus.

A swimming apparatus by means of  
which a person without any previous  
knowledge may pass through the wa-  
ter with perfect safety at the rate of  
sixteen miles an hour has been con-  
structed by a French inventor. The  
apparatus consists of a plank about  
six feet long, with floats at each end.  
It can be folded and easily trans-  
ported.

## Lemon Hint.

Instead of throwing away hard, dry  
lemons, put them in a pan of hot wa-  
ter and set it where it will maintain  
about the same degree of heat with-  
out boiling for two hours. When tak-  
en out and dried the lemons will be  
as soft and juicy and rich in flavor  
as though they had never grown hard.
